The Assembly of Contributors to the Fund of the Eastern Europe Energy Efficiency and Environment Partnership Fund (hereinafter - "E5P Fund"), established by the European Bank for Reconstruction and Development (hereinafter - "EBRD") within the framework of the Eastern Europe Energy Efficiency and Environment Partnership (hereinafter - "E5P") approved the grant in support of the Project “Solar Power Plant for Water and Wastewater Utility in the City of Chortkiv” Project within the framework of the NEFCO “ Green Recovery Programme for Ukraine ”.

The project is aimed at increasing energy efficiency, sustainability and minimising negative environmental impacts through the production of "green" electricity to power water supply and sewerage facilities in the city of Chortkiv. As a result of the implementation of the project, the customer plans to obtain a solar power plant with a total capacity of 340 kW on three separate sites, using the latest scheme of state support based on the principle of the "active" consumer tariff (Net billing). As part of the project, purchases in the amount of up to EUR 500,000 are planned. The works are expected to be completed in 2024.

Specific procurement notices for contracts subject to open competitive bidding will be announced in May 2024.

We encourage contractors to promptly express their interest in the procurement opportunity by **24.05.2024**, sending an e-mail to the Project Management Consultant via energy.chortkivmr@gmail.com, including the following details:

- 1) Legal name of your company,
- 2) ERPOU code if applicable

Upon receipt of your email, we will provide you with a brief questionnaire tailored to gather further information about your company.
